talhaherr@gmail.com

### Address

Shadab garden, Lahore

## Education

2019-2021

**Intermediate in Computer Science**  
Punjab College

2017-2019

**Matric with Computer Science**  
Unique Group of Schools

## Expertise

- UI/UX
- Php
- Firebase
- React
- Node JS
- Python

## Language

English

Urdu

## Experience

○ 2020-2021

Info Sys | Remote

### Junior Python Programmer

As a junior Python programmer, I specialized in automation tasks, such as developing scripts to automatically fetch emails and process attached documents. I also gained valuable experience in leadership skills.

○ 2021 - 2022

Bacy Solutions | Iqbal Town, Lahore

### SQL Intern

As a SQL intern, I focused on gaining hands-on experience with database management and optimization. I got insights in designing and implementing database structures, conducting queries, and analyzing data.

○ 2022 - 2023

Mobinators | Wapda Town, Lahore

### Android Developer Intern

During my internship, I spearheaded a project focused on plant management, allowing users to input and access plant information seamlessly. I actively contributed to the development of the app's user interface and functionality.

## Projects

### Dream Interpreter Web

I developed a dream interpretation platform utilizing React.js and Flask. This platform enables users to input details about their dreams for tailored interpretations. It incorporates Natural Language Processing (NLP) for in-depth analysis, empowering users to delve into dream symbolism and identify recurring patterns.

### Tailor Management System

I crafted a custom management system utilizing Django and React.js, aimed at enabling small businesses to streamline their operations effectively. Key features encompass order and inventory management, as well as customer interactions.
